REPORT OF THE PROJECT MANAGEMENT TEAM

The Project Management Team has the pleasure in submitting its report and the audited financial statements of the Solar Development Sub-Saharan Africa Project – Phase 1 implemented by the West African Power Pool (WAPP) for the year ended 31 December 2019.

Statement of management's responsibilities

The Project Management Team is responsible for the preparation of financial statements that give a true and fair view of the state of affairs of the project and of the Statement of Sources and Uses of Funds for that year. In preparing these financial statements, WAPP has selected suitable accounting policies and then applied them consistently, made judgements and estimates that are reasonable and prudent and followed International Public Sector Accounting Standards “Financial Reporting under The Cash Basis of Accounting”.

The Project Management Team is responsible for ensuring that the Project keeps proper accounting records that disclose with reasonable accuracy at any time the cash position of the Project. The Project Management Team is also responsible for safeguarding the assets of the Project and taking reasonable steps for the prevention and detection of fraud and other irregularities.

Principal activities

The principal activities under the Project are stated on page 8 of this report.

Financial results

The Statement of Sources and Uses of Funds on page 7 shows a net increase in project funds of US$ 4,682 for the year ended 31 December 2019.

Auditor

PricewaterhouseCoopers Chartered Accountants was appointed by WAPP to carry out the audit of the Financial Statements of the Project for the year ended 31 December 2019.

INDEPENDENT AUDITOR’S REPORT
TO THE EXECUTIVE BOARD OF THE WEST AFRICAN POWER POOL

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Solar Development Sub-Saharan Africa Project – Phase 1 implemented by WAPP as at 31 December 2019 and of its Statement of Sources and Uses of Funds for the year then ended 31 December 2019 in accordance with International Public Sector Accounting Standards (IPSAS) “Financial Reporting under the Cash Basis of Accounting”.

What we have audited

We have audited the financial statements of the Solar Development Sub-Saharan Africa Project – Phase 1 (the "Project") for the year ended 31 December 2019.

The financial statements comprise:

• statement of financial position;
• the statement of Sources and Uses of Funds for the year ended; and
• the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor’s responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of West African Power Pool in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) (the Code) issued by the International Ethics Standards Board for Accountants. We have fulfilled our other ethical responsibilities in accordance with the Code.

Other information

The Project Management Team is responsible for the other information. The other information comprises the Report of the Project Management Team but does not include the financial statements and our auditor’s report thereon.

Our Opinion on the financial statements do not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.
INDEPENDENT AUDITOR’S REPORT
TO THE EXECUTIVE BOARD OF THE WEST AFRICAN POWER POOL

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)
Other Information (Continued)

If, based on the work we have performed on the other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Project Management Team for the financial statements

The Project Management Team is responsible for the preparation of financial statements that give a true and fair view in accordance with International Public Sector Accounting Standards (IPSAS) “Financial Reporting under the Cash Basis of Accounting” and the requirements of the grant agreements and for such internal control as the Project Management Team determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Project Management Team is responsible for assessing the Project’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Project Management Team intends to cease operations, or have no realistic alternative but to do so.

The Project management team is responsible for overseeing the financial reporting process.

Auditor’s responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Project Management Team;
Auditor’s responsibilities for the audit of the financial statements (continued)

- Conclude on the appropriateness of the Project Management Team’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Project to cease to continue as a going concern; and

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentations.

We communicate with the Project Management Team regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Project Management Team with a statement that we have complied with relevant ethical requirements regarding independence, and have communicated with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor’s report is Hayfron Aboagye (ICAG/P/1502).

NOTES

1. General information – Project Background

On July 7, 2018, the World Bank’s Executive Board of Directors endorsed IDA grant support of USD 21 million to the WAPP Secretariat and its members. The IDA Regional Solar Development is Sub-Saharan Africa Series of Projects, Phase 1 (Saheel) is put in place to help WAPP to ensure timely implementation of WAPP priority solar investments as defined in the existing and upcoming WAPP Master Plan and provide technical assistance activities to WAPP and its member utilities related to grid integration of variable renewables, in particular solar energy.

The Project Development Objective (PDO) of the SOP is to promote the deployment of competitively procured Regional Solar Parks in West Africa and enable the dispatch of intermittent solar energy. The SOP #1 project specific PDO is to strengthen the regional technical capacity for preparation of large-scale solar parks and integration of solar electricity into the grids.

On 19th September 2018, the World Bank and the WAPP Secretariat signed a grant agreement of $21 million United States Dollars for the ‘Solar Development in Sub-Saharan Africa Project’. The agreement became effective on 17th December 2018. The project is expected to close on 31st October 2023.

The SOP #1 is designed as technical assistance to WAPP to support the establishment of an enabling framework that would accelerate the deployment of large-scale solar plants in the WAPP region through the identification of technical bottlenecks, preparation of Regional Solar Parks, and knowledge sharing. SOP #1 will be implemented by the WAPP Secretariat in collaboration with the utilities and authorities of the recipient countries. SOP #1 consists of a regional IDA grant of US$21 million, which will be used toward the identification and preparation of regional investments in solar electricity generation, grid infrastructure, dispatch and storage, along with capacity-building support with a particular focus on planning, regulations, and technical knowledge and resource assessment and validation. Special attention will be given to the integration of gender considerations in both components. This will be achieved mainly through staffing in the ICC and the WAPP Renewable Energy Task Force, as well as in capacity building and training activities, which will serve to reduce the gap in knowledge about gender and female staff in the solar energy sector.
2. Accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below:

(a) Basis of preparation

The financial statements have been prepared under the historical cost convention in accordance with the International Public Sector Accounting Standards (IPSAS) "Financial Reporting under The Cash Basis of Accounting" and the requirements of the project agreement.

In the absence of an International Public Sector Accounting Standards that specifically applies to a transaction, other event or condition, the project management uses their judgement in developing and applying an accounting policy that results in information that is relevant to the decision-making needs of the users of the financial statements:

- represent faithfully the cash flows of the project;
- reflect the economic substance of transactions, other events and conditions and not merely the legal form;
- are neutral, that is, free from bias;
- are prudent; and
- are complete in all material respect.

(b) Sources

Transfers from the World Bank are recognized as revenue upon receipt in the designated Project’s bank account.

Direct disbursement to third parties made by the World Bank are recognized as revenue upon receipt of payment notification from the World Bank.

(c) Uses

Expenditure is recognized when payment is made from the project bank account or directly by the World Bank.

(d) Property, plant and equipment

Property, plant and equipment (PPE) are expensed upon acquisition.

(e) Foreign currency

The functional and reporting currency is United States dollars (US$). Transactions in foreign currencies are translated into US$ at the ruling rates at the transaction date.

Balances in other currencies are translated into US$ at the rates of exchange ruling as at that date. The resulting gains or losses are recognised in the statement of cash receipts and payments.
2. Accounting policies (Continued)

(f) Cash and bank

Cash and bank consist of balances in the Project bank account and cash on hand as at 31 December 2019.

(g) Budget

The budget for the project is prepared on cash basis and covers the same year 2019 as the financial statements. The budget was approved by the World Bank. During the year, there were no reclassifications between budget line items.
3. **Cash and bank balances**

This consists of bank and cash balance as at year end.

8. Commitments

There were no commitments as at 31 December 2019.

9. Events after reporting period

It is envisioned that the COVID 19 pandemic will most likely have an impact on the economy and the activities of the Project. The Project is, however, not able to produce a reliable estimate of this impact at this point.

The Project Management is not aware of any other material events that have occurred between the date of the statement of financial position and the date of this report.
INDEPENDENT AUDITOR'S REPORT
TO THE EXECUTIVE BOARD OF THE WEST AFRICAN POWER POOL

REPORT ON THE AUDIT OF THE DESIGNATED ACCOUNTS STATEMENTS

Our opinion

In our opinion, the accompanying designated accounts statements of the Solar Development Sub-Saharan Africa Project – Phase 1 implemented by WAPP for the year ended 31 December 2019 are prepared, in all material respects, in accordance with the accounting policies described in note 1 to the designated account statements.

What we have audited

We have audited the designated accounts statements of the Solar Development Sub-Saharan Africa Project – Phase 1 (the "Project") for the year ended 31 December 2019.

The designated accounts statements comprise:

- the designated accounts statements for the year ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of WAPP and the World Bank in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) (the Code) issued by the International Ethics Standards Board for Accountants (IESBA). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Emphasis of matter – Basis of accounting and restriction on distribution and use

We draw attention to note 1 to the designated account statements, which describes the basis of accounting. The designated account statements are prepared to assist the West African Power Pool to comply with the provisions of the Financing Agreement. As a result, the designated account statements may not be suitable for another purpose. Our report is intended solely for the Project Management Team of the West African Power Pool and the World Bank and should not be distributed to or used by parties other than the Project Management Team of the West African Power Pool and the World Bank. Our opinion is not modified in respect of this matter.
INDEPENDENT AUDITOR’S REPORT
TO THE EXECUTIVE BOARD OF THE WEST AFRICAN POWER POOL

REPORT ON THE AUDIT OF THE DESIGNATED ACCOUNTS STATEMENTS
(CONTINUED)

Responsibilities of management and those charged with governance for the designated account statements

The Project management is responsible for the preparation of the designated account statements in accordance with the accounting policies described in note 1 to the designated account statements, and for such internal control as management determines is necessary to enable the preparation of designated account statements that are free from material misstatement, whether due to fraud or error.

In preparing the designated account statements, management is responsible for assessing the Project’s ability to continue as a going concern. Under the terms of the financing agreement the project will end on 31 October 2023.

Those charged with governance are responsible for overseeing the Solar Development Sub-Saharan Africa Project – Phase 1’s financial reporting process.

Auditor’s responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the designated account statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the designated account statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management; and
Auditor's responsibilities for the audit of the financial statements (continued)

- Conclude on the appropriateness of the management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the project’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the designated account statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Project to cease to continue as a going concern; and

- Evaluate the overall presentation, structure and content of the designated accounts statements, including the disclosures, and whether the designated accounts statements represent the underlying transactions and events in a manner that achieves fair presentations.

We communicate with Project management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The engagement partner on the audit resulting in this independent auditor’s report is Hayfroon Aboagye (ICAG/P/1502).

NOTES

1. Accounting policies

The principal accounting policies adopted in the preparation of the designated account statements are set out below:

(a) Basis of accounting

The Designated Account Statement has been prepared in accordance with the provisions of the grant Agreement Number D322.

(b) Opening balance

There is no opening balance as this is the first year of project implementation.

(c) Transfer from IDA

This represents transfers from the World Bank. Transfers are recognised as income when it hits the designated accounts.

(d) Eligible expenditure

This is made of all eligible payments made by the project through the designated account during the year under review excluding direct payments and payments from the petty cash account.
